Portfolio:- <https://suryansh700.github.io/Portfolio/>

EDUCATION

Chaudhary Charan Singh University

SGPA: 8.30

Meerut, UP

Sept. 2023 – Present

EXPERIENCE

Web Development Intern - Banaras Locomotive Work(BLW), Varanasi

July 2025 – Aug. 2025

Varanasi, U.P.

- Solely responsible for designing and implementing a web-based employee form portal using HTML, CSS, JavaScript, and PHP, ensuring alignment with organizational requirements and usability standards.
- Led end-to-end development lifecycle including requirement analysis, UI design, backend integration, testing, and deployment within the internship duration.
- Independently handled database architecture and MySQL integration, performing data validation, storage, retrieval, and optimization for efficient record management.
- Implemented secure admin authentication system, ensuring controlled access to submitted data and maintaining data integrity.
- Collaborated with internal stakeholders to gather functional requirements, conducted testing, resolved bugs, and ensured smooth system performance before final deployment.

PROJECTS

PashuLens – Cattle Breed Recognition System

Sept. 2025 – Oct. 2025

- Performed extensive data preprocessing including image resizing, normalization, augmentation, and dataset balancing to improve model generalization.
- Designed and implemented a multi-layer Convolutional Neural Network (CNN) architecture for accurate breed classification.
- Evaluated model performance using accuracy, precision, recall, and confusion matrix analysis.
- Built a Machine Learning model using Python and Convolutional Neural Networks (CNN) for cattle breed classification.
- Trained and tested the model on a custom dataset achieving 85 percent accuracy.

Social Lead Agent – Web-Based Lead Platform

Nov. 2025 – Dec. 2025

- Developed a lead management system using Python (Anaconda environment) for collecting and organizing social media leads.
- Implemented backend processing, data handling, and structured storage using database integration

CERTIFICATIONS

Web Development Certificate – BLW Intern

Build With AI – GDG SCRJET

Quantum Computing – CDAC IIT Roorkee

SIH 2025 – Internal Round

SKILLS

Language: Python, SQL, JavaScript

Data Manipulation: Pandas, NumPy

Visualization: Matplotlib, Seaborn, Tableau

Tools: Jupyter Notebook, Git, GitHub, sqlite

Soft Skills: Good Communication, Problem Solving, Team Collaboration
